

Gadelius and KTH welcome you to the seminar

SUSTAINABLE TOKYO 2040

ENERGY SYSTEMS FOR A SMARTER, CLEANER, BETTER CITY

Where: KTH Main Stockholm Campus, Room E1, Lindstedtsvägen 3 ([Map](#))

When: Monday June 4th, 13:30

Within KTH Energy Technology's masters course Energy Management (MJ2410), 120 students are creating sustainable energy system proposals for Tokyo in 2040. Twenty teams are competing for the opportunity to travel to Tokyo and pitch their ideas at the Swedish Embassy in Tokyo.

The top five groups will present their proposals at this KTH event where the winning team will be chosen. The seminar will be of interest to anyone from business, government, or academia involved with sustainable cities and innovation.

This event is part of the 150-year anniversary of Japan-Sweden diplomatic relations and the 111 years anniversary of Gadelius.
